-OR TITE-EXPERIENCE OF PETER PRINCLE. A. Christmes Story.

CHAPTER III. PETER PRINGLE'S WARD. (Continued.)

She was a pretty, fair-haired, bright-eyed creature, little Agnes Austin, and used to hound about the house like some spirit; she seemed in every place at once; you scarcely heard her ringing laugh in the hall, but she stood before you; and as to walking, it was a thing she seemed hardly able to do; notwithstanding her quiet mother's constant assurance that there was no hur-ry, she never did anything so common as to walk quietly across the room; her light footedness, and light hairedness, obtained for her the nick-name of "fairy," and by

such was she always called.

Mary Lester was not pretty, but she was loyable and interesting, quiet, steady, and cheerful; heing remarkable for neither beauty nor wit, she was unattractive to the common observer; but those who knew her high principles, and her unflinching per-formance of her duty in its strictest sense, loved her as she deserved to be loved.— How particularly comfortable Mr. Austin's library does look, such a famous fire, such a lazy cat lying before it, such a bright ket-tle boiling on it, such a nice breakfast laid on such a white cloth, that actually looks white, notwithstanding the snow, which has such a saucy knack of making everything look yellow; and better than all this, such a verty assembled at breakfast—such a contented, grateful, happy party, not one among them who does not look up in his neigh-lor's face with a look of love. Whatroom,

then, would not seem comfertable?
"Papa," said Agnes suddenly to her father, who was engaged in that, to most men, important occupation, reading the newspaper,—"Papa—dear—" No answer; again she said, "Papa dear, now you shall not read another line till you assessed." not read another line till you answer me," and she covered the portion of the paper he was reading, with her hands.
"How can can you be such a goose," said

Mary, smilling, "as to imagine that your tiny hands can prevent Mr. Austin seeing? He is still reading you know."

"Ah! but it has made him look up,

"Ah! but it has made him look up-though," she answered, as Mr. Austin peer-ed over his speciacles at the merry face of his darling little daughter. "Now, do tell no," she continued, "do you think he's a

"Oh, now don't be silly, papa, pretending you don't understand me. I mean a rough, bearish, snappish sort of fellow."

# The Daily Rews.

NEWPORT, 144 Thames Street.

TU! "DAY, MORN'G, JAN. 20, 1857.

E. Tourier, Esq., is hereby authorized. to transact for us any business connected time than can be allowed it to-day. with the News and Journal office, of this

Some people have a faculty of never being contented, and Newport is nt quite free from such a tendency. Old politicians used to rave because the "News was "aousive," and "one sideded," now the sam
Philosophers think it. "too lenient on Politics" and not "Spiey." How about that
"Spies" Mr. Editor? Can't you please
R. ed to rave because the "News" was "abuthem?

Alas for us I just as we get comfortably scated in ove editorial che'v and begin to facey ourself growing quite popular about town, up comes an impertment fellow and tells us that certain "Philosophers" among us are quite dissatisfied-that we don't please them at all-that "pice" is what they want, and spice is not given them -At first, we felt the kindlings of resentment but aver a moment's pause, being ourself one of the philotophers, and more clearly apprehending the reere of the demand. we concluded to look the matter over and see if there might not be some ground for the a leged dissertingation. And, (Car me!) the last state of the case is worse than the first! Our resentment is gone and we stand self-condemned. Turning over our entire file of papers, the article demanded, it must be conferred, is not there! Not a solitary instance can we discover of nuicknaming our neighbors; not one, of assaulting their reputation or intermeddling with their rights in any way. We find also that in our simplicity, this "leniency" has been extended to matters of opinion. We discover no trace of our having chastised any one for merely having formed an estimate of some subjects different from own. To the great detriment, we fear of offenders of this class, they have been allowed to go unwhipped; flattering themselves in the mean time, that they had as good a right to an independent judgment on any question as ourself! Yes, and as if wholly given over to editorial misdemeanour, we have allowed different political parties to exist in our midst, not only without questioning their right to do so, or depreciating their patriotism, or stigmatising their motives, but have even treated them with courtesy. Our failure to administer the "spice" usual in such cases, will not it is hoped, be ascribed to malice prepense." How sad not to see one's errors till after they have been committed ; Why could we not have been spared this terrible mortification! How easy for some one to have told us at the outset, that this kind of "spice" would be expected. The expectation is so very reasonable too! The burden seems almost too heavy to be bourn! And yet, how can we be relieved? If the plea he made that we were early educated into the idea, that courtesy pertains to our intercourse with others by the pen as well by the tongue, we shall be regarded by these same"Philosophers" as a fool! for they believe no such thing. If we change our course in' silence, and spice persons and parties by name, according to the demand, we shall be thought a "turncoat." Hence, turn which way we will, no method of escape presents itself Do, friend R-if you can excuse your having been called an "impertinent fellow

of relief and apprise us of any success in the

undeavor, as early as posssible.

We understand that three men came near losing their lives by exposure to the cold on Gull Rocks, on Sunday last. They went there for the purpose of hunting, on Baturday, and being unable to return, were exposed to the weather till about 4 o'clock the next day, when they were taken off badly frozen. Their names are John and Thomas Hayes and Mathew Brooks.

We understand that the Mayor intends to enforce the Ordinance in regard to clearing the snow from the side-walks, against all those who do not clear their walks by noon to-day. It is a matter of great importance to the whole community that the walks should be cleared.

Last Sabbath was much the coldest day experienced in this locality the present season. At 6 o'clock, a. m., the thermometer was six degrees below zero.

IGNORANCE OF SCRIPTURE.-There is an apecdote of an enthusiastic partizan who began a speech in some political Convention, "Mr. Chairman! I entered this hall with feelings like those of the Apostle, when he cried out for the space of two hours, "Great is Diana of the Ephesians !"

Near the close of one session of Congress a certain member said : "Mr. Speaker : let me say, in the language of Scripture :

While the lamp holds out to burn The vilest singer may return.

Some one rose and said that was not scripture ; "Aint scripture ? Well, it ought to be, if it aint !"

instances of ignorance of scripture with which we had been made acquainted. The first we will mention, occurred on board of the State of Maine, a few weeks since, on her passage from Fall River to this place.

The perpetrator of the blunder was describing in a very animated manner and to a gaping few, his success in raising a certain kind of grain on his farm. For a while he seemed to be in doubt about trying to raise the crop produced; nor could be find sufficient, relief from these doubts to venture upon the experiment till that scripture came to his mind, "whosoever sows shall also reap."

The next in order must be reserved til to-morrow as it will require more room and

Revolt of Convicts-Trouble at Auburn State Prison. A gentleman from Auburn informs us that a revolt has occurred in the State Prison in that city, which had caused great excitement, and though suppressed for the present, is likely to cause much future trouble. The difficulty occurred in the machine shop, where the work of the convicts is contracted. Mr. Curds, a contractor, on Saturday directed a convict to do a piece of work. The man replied that "he would see Mr. C. d.——d first. The disobedient man was arrested, and put into a dungeon, where he remained over sauday. On Monday morning some sixty convicts in the machine ing some sixty convicts in the machine chop gathered hammers and other tools, and formed a cive ready for fight. The contractors one in and coquired what was going on. Some of the prisoners replied that they were holding a lown meeting, and wanted to know how he would vote. He wildness without futher parley. A commoder of the prisoners was then sent to demand the instart release of the man confined in the dungton. The committee did not return a soon a was expected, so the whole tuen as soon as was expected, so the whole body armed themselves with what tools they

could get and marched to the hospital.

The prisoner was released and his follow convicts resumed labor. Yesterday things were quiet, but the Admin Guards were evidently about produces. ordered to hold themselves in readiness te come to the rescue at a moment's notice, as come to the rescue at a moment's notice, as further rocable was anticipated. This yielding by the prison officers will give the convicts new courage, and we may expect to hear of futher grouble. Perhaps the bloody scenes which have been recently enacted in the Ma sachuseits Prison at Charlestown, may be expected as Auburn.

In several towns in this vicinity, as we are informed, about seventy-five hogs have are mormed, about seventy-five logs have died with great rapidity after they were attacked. One lot of twenty-three was seat from a town in this region to Henniker, N. H., a few days since, and at last accounts all but two were dead.

In some cases, the logs are well at night, eating their food as usual, but are found dead in their peas in the morning. As yet the mortality is noticeable more for its singularity and endowers them. For its victor suddenness, than for its extent No remedy has yet been discovered for the

A Scene in New York.—Shop-keeper—Hulloa, there! here, you nigger, what are you doing with those boots?

DISASTER.—New York, Jan 16.—Bark Byron, Capt. Gray, from Cardenas, with sugar, was driven ashore this morning on the inner middle ground, in our lower bay, by the ice. She was cut through by the ice, and her decks are under water. The crew were takien off in safety.

THE WINE CROP OF ITALY .- The harvest this season has proved much better than in five years before. The vine, which has almost entirely failed since 1860, has yielded near half an ordinary crop, and the ailk and olive harvests are also much more abundant. A large proprietor who used to produce 40,000 and 50,000 barrels of wine annually before the appearance of the malady, which is now apparently disappearing, and whose whole produce last year did not exceed a dozen barrels, tells me that his vineyards have this seasons yielded several thousand.

Lombardy and Venice, which produced last year only 342,400 hectolitres, la hectolitre is 28 1-2 gals.) estimated to have yielded this season over four millions of that measure. This is encouraging, for the vine is to Italy what corn is to us. The vine is to the poor, who have little to eat and nothing else to drink, the staff of life .- Newark Advertiser.

TERRIABLE DEATH.—Fred Mentz was found a few days ago in a swamp near Lyons, Illinois, frozen to death in the ice. It is sup-posed that he came to a place in the swamp where the ice was rotten, as it was raining at the time, and breaking it, was mable to ex-tricate himself, and so perished. When found, it was necessary to chop the body out in a large block of ice with axes, as the renn targe most offee with axes, as the ex-cent cold had frozen to a considerable depth. His body, from the waist downward, was be-low the surface of the swamp. His head was bent downward, and his hands clasped, as in common attitude of prayer.

ADVERTISING .- As the world judges, one of the surest evidences of prosperity in business is frequent, conspicuous and confident advertising of it in newspapers. The world loves to help the prosperous. The well-known and thriving merchant is sure of customers that the quiet and small trader can not possibly get. An infallible recipe for success in a manufacturing or mercantile not possibly get. > A RIOT.—Albion, N. Y. Jan. 16.—8 P. M. A terriable riot is now going on in Main street, between a party of Americans, and a party of Irish. Two men are dead, and several others are lying on the ground dangerously wounded. Knives and other weapons are being freely used.

MR. Roat. M. Pathion, 192 Pearlst.
Dean Sir.—The Deliance Safe, No. 5,778, purchased from you about eighteen months since, was in my house at Newport, R. L., which, with the furniture, was entirely destroyed by fire on the night of 5th the June last. The Safe, after being exposed to an intense heat for many hours, was recovered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was agreeably surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect order as when placed therein. It is with pleasure I aid my testimony to the merits of the Safes of your manufacture. Yours, Respectably,

My particular object in writing now is to beg that on receipt of this, and by first direct opportunity offering immediately after, you will kindly despatch another batch as ordered in my letter of dune last. Dit. Deponent's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, egulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless the is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of as many consumptions among young females. Newport, Jan. 8, 1857—1w.

TOTTERIES—The Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn Commissioners to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties a thousand miles off are as well protected as if they were present. Another fact the managers desire to call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as the sale is there made, in a State where Lotteries are legalized. They draw a Lottery on or about the 19th, 29th and 39th of each month. All orders received are filled in the drawing next to take place after the communication comes to hand. The price of tickets is always \$10—half, \$5—quarter, \$2.59. No tickets are forwarded unless the money is received with the order. The drawing is upon the principle of one number upon each ticket, and it is so simple that every one can understand it. There is no combination of numbers to missify the buyer. Prizes vary from \$30 to \$50,000, every prize is drawn.—Write your address plain, and direct to S. SWANA & CO., Atlanta, Georgia. P. S.—The fairness of our Lotteries can be ascertained by inquiring of any respectable citizen of our State.

During the time I occupied the office of Commissioner of Patents, R. A. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the the Patent Office.

He is thoroughly engaged in the transaction of business with the office, as a solicitor. He is thoroughly enquainted with the law, and the rules of practice of the Office. THE GREATEST WONDER OF THE

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE AMINUTES.—M. LEROUX'S French, Cholera Cognae Bitters. This truly wonderful scientific compound is recommended by the most emineat and learned physicians of all Europe and America, and employs the best repetution of anything similar over offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoca, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armites of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and invenue, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billionsness, indigestion, weakness, and general derangement of the stomach. Upon heing taken, it creates appetite, and prevents the heaviness attendant upon rating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undustred success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its inmediate and complete success, which he will be happy at any time to show to any that may wish to see them.

S PRATT'S LIGHTNING RODS—With CPRATT'S LIGHTNING RODS—With
Dranched and other points made of pure copper and gilded with fine gold, all of, which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious inflation made of cast iron, and sold last year by some dealers in lightning rods.

Also, fixtures for a new and valuable improvement in applying insulators by which the glass is kept dry, causing no lenks in roofs of buildings, and effectually preventing the electrical fluid from being conducted by iron screws and drives into the seam.

The following recommendations have been furnished gratuitously:

Louisville, Jun. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which alb buildings are liable. In SILLIMAN, Jr.

Prof. of Chem. in the Univ. of Louisville

Prof. of Chem. in the Univ. of Louisville
This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr.Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

PROPESSIOR WOOD offers for sale perfect HAIR RESTORATIVE. It if in a short time restore the Hair, which has become gray prematurely, to its original enforming it out where it is goic, and arrestiwen it is falling offer element the head of draft and itchings—remove all cutt neer eruptions, and render the scalp prefectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not Dye the hair, but is, it short a perfect llaft invigorator and Tonic.

To the young, who so much admire the beautiful locks and ringlet, the feels that he will be parduned if he offers the advice suggested by long study and extensive observation. It is to discard all cologue and stimulating oils for the hair, and keep always upon the toliet a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piereing,—and the teech be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovering mencedy for those who are gray as well as those who are hald, all must see the propriety of making only such application to the hair and scalp as is exiculated to preserve both in a healthy state.
